

PR 486: INTRO TO DIGITAL DESIGN TOOLS

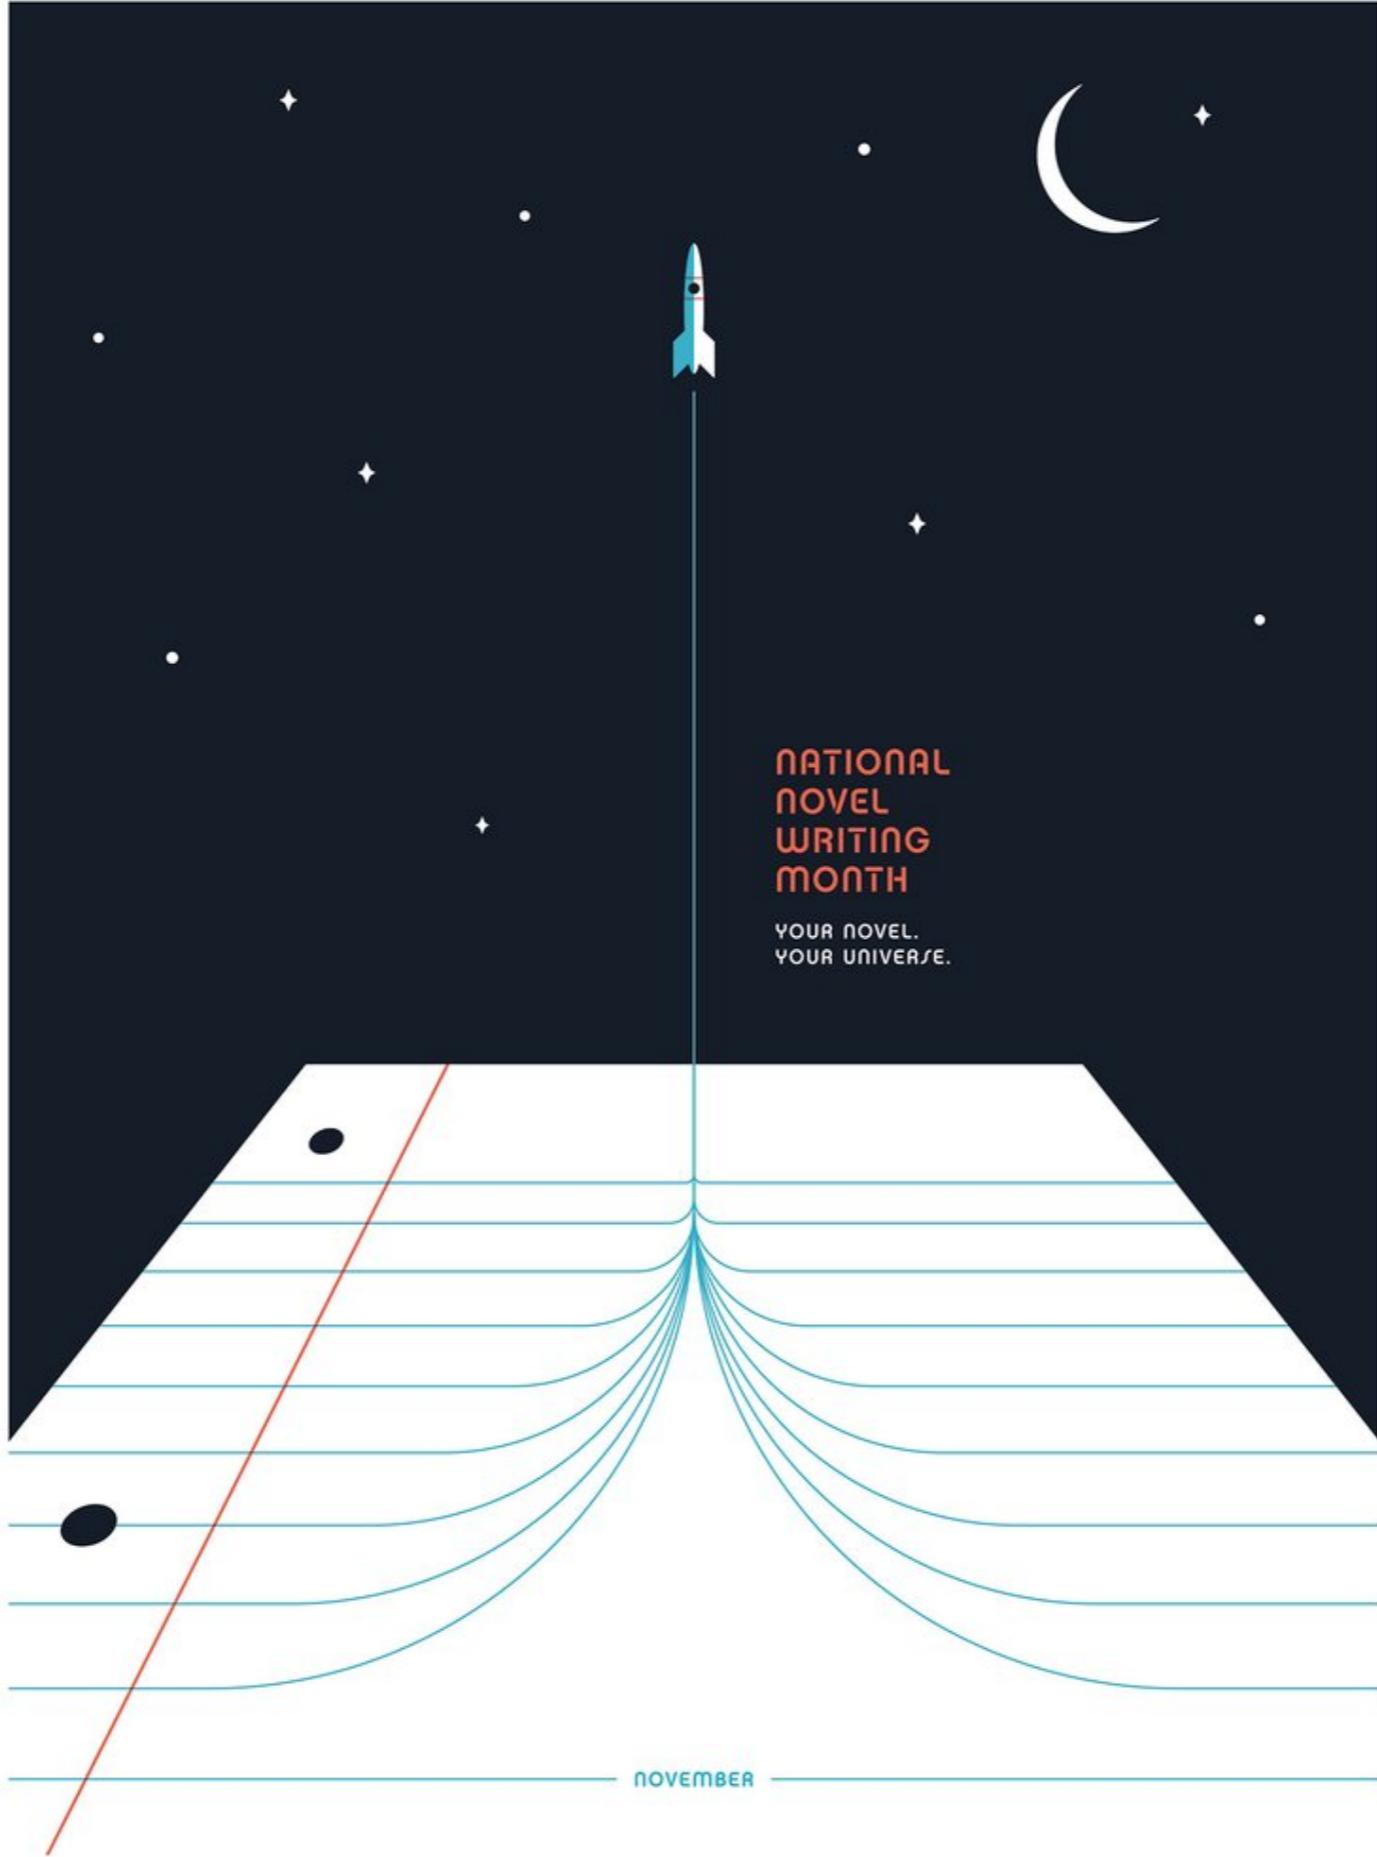

POSTER DESIGN

POSTER DESIGN CONSIDERATIONS

- ▶ Your design must have immediate impact. People have to look at it quickly and you've got to grab them right away.
- ▶ Having one big focal element helps, whether it's a bright color, a big headline, an arresting image, or a pattern that invites people to look closer.
- ▶ The Rule of Fives: A good poster should be as impactful at 50 feet as it does at 5 feet and as it does at 5 inches. It grabs attention from far away, and reveals details upon closer inspection.

POSTER DESIGN CONSIDERATIONS

- ▶ High contrast is your friend. Again, it helps when it has to be readable from far away.
- ▶ Don't shy away from using a lot of white space. Sometimes that space is what draws the eye.
- ▶ Make sure your information is in a flow that makes sense. You can play with placement, but you should place everything deliberately.
- ▶ Think about your audience and what would appeal to them.

SEA GLASS RECORDS

The image features a bold, graphic title 'FAMOUS' composed of large, white, sans-serif letters. The letters are partially overlapping, creating a sense of depth. Each letter contains a black and white portrait of a woman's face, likely a famous figure. The background is black and is punctuated by several large, angular, brightly colored shapes: a magenta triangle on the left, a yellow triangle at the top right, a cyan triangle on the far right, and a white triangle on the far left. The overall aesthetic is modern and celebratory.
